TEACHERS RESENT  
ALLEGED CHARGES

Declare That the National Educational Association Is Democratic

Oakland, Cal., Aug. 17.—Charges that the National Educational Association is an undemocratic organization which have been frequently made during the annual convention here today were challenged today by California teachers who announced a policy of neutrality and a determination to see that the judgment of the representatives of the different states is carried out in the election of officers which continues to be the center of interest.

The announcement of the stand to be taken by the California teachers who outnumber all of the other delegations, followed the statement of Miss Grace Strachan, candidate for the presidency of the N. E. A., that if she was refused the nomination by the committee in charge, she would carry the fight to the floor of the convention. Realizing that they held the balance of power because of numbers, the California teachers after a heated session, resolved to "look with disfavor on an effort to overturn the judgment of representatives of the various states in the nominating committee."

David B. Johnson, president of the Winthrop Normal and Industrial college, North Carolina, who opposes Miss Strachan for the presidency, was apparently gaining strength today. It was argued that inasmuch as Dr. Johnson retired in favor of Dr. David Starr Johnson, of Leland Stanford, Jr., university, present president of the association, last year, he is the logical candidate for the chief executive position this year.

During the morning sessions today departmental congresses were held on in kindergarten education, social hygiene, rural education. The national federation of state teachers associations, the national vocational guidance association and international kindergarten union held special conferences. Throughout the day the annual convention of the state and national club leaders was held.

JITNEY ORDINANCE IS  
READ IN CITY COUNCIL

Provides For Surety Bond In Case of Accidents and License Fee

The new "Jitney" ordinance came up for the first and second readings at the city council meeting last night and will be up for final passage at the regular meeting of the city council September 7. Under the terms of the ordinance a jitney is any auto for hire except motor hearses, motor ambulances, hotel busses, taxicabs, and autos operating from stands under a permit from the street commissioner or from garages or fixed locations upon telephone call. It provides for an annual license fee of \$12 for each car, payable quarterly in advance and each driver must have a permit from the city recorder and put up a surety bond. Upon depositing 50 cents with the city recorder each driver is furnished with a metal badge which shows him to be a licensed driver.

Only the weight of two more than the seating capacity of the car can be carried and no one is allowed to ride on the running board or fender. Jitneys must stop for all persons who signal except the prospective fare shows signs of intoxication. The jitney must be advertised by letters on the windshield that can be seen a distance of 100 feet, and only a five cent fare may be charged within the city limits.

The driver is not allowed to smoke or drink while operating his machine and the company must put up an insurance policy which will pay \$2,500 in the event of one person killed in an accident of \$5,000 in case two or more are killed or injured. A fine of not more than \$100 or a sentence of 20 days in jail is provided for the breaking of any of the provisions of the proposed ordinance.

"Benson Day" Observed  
at Frisco Exposition

San Francisco, Aug. 17.—Panama-Pacific exposition officials united with Oregonians here today to honor Simon Benson, philanthropist of Portland, as Oregon's foremost citizen.

The day opened with ceremonies at the Court of Abundance where Benson was presented with a bronze medal by Charles C. Moore, president of the exposition. In a short response, Benson expressed his gratitude for the honor that had been accorded him and commended the loyalty and public spirit of the people of Oregon. Benson is the official Commissioner, John P. Logan told of the work that Benson has done and why he has been honored with the title of "Oregon's first citizen." Governor James W. Witherby was present but not in an official capacity.

Benson was the guest of honor at a luncheon given this noon by the exposition officials and during the afternoon was entertained at an informal reception in the transportation palace near panorama of the Columbia river highway, one of Benson's achievements. A formal reception in the Oregon building tonight will close the day's program.
